PART I

AMENDMENTS TO THE ACT

101.(1) Subsection 6 of section 4 of *The Corporations Tax Act, 1957* is repealed and the following substituted therefor:

(6) For the purposes of subsection 5 of this section and subsection 5 of section 5,

- (a) where merchandise that is sold to a customer is shipped to the customer from a permanent establishment of the corporation, the gross revenue derived therefrom shall be attributable to that permanent establishment and shall not be attributable to any other permanent establishment;
- (b) where standing timber is sold, the gross revenue derived therefrom shall be attributable to the permanent establishment that includes the timber lands on which the timber is standing and not to any other permanent establishment; and
- (c) where merchandise that is sold to a customer is shipped to the customer by the supplier of the corporation and does not pass through a permanent establishment of the corporation, the gross revenue derived therefrom shall be attributable to the permanent establishment to which the person negotiating the sale may reasonably be regarded as being attached.

(6a) For the purposes of subsections 5, 11, 23, 24, 25 and 26 of this section and corresponding subsections of section 5, where a corporation pays a fee to a person under an agreement pursuant to which the person or employees of that person perform services for the corporation that would normally be performed by employees of the corporation, the fee so

paid shall be deemed to be salary paid in the fiscal year by the corporation and that part of the fee that may reasonably be regarded as payment in respect of services rendered at a particular permanent establishment of the corporation shall be deemed to be salary paid to an employee of that permanent establishment.

- (6b) For the purpose of subsection 6a, a fee does not include a commission paid to a person who is not an employee of the corporation.
- (2) Subsection 26 of the said section 4 is repealed and the following substituted therefor:

(26) Notwithstanding subsection 5, the amount of taxable income of a corporation, the chief business of which is the operation of ships, that shall be deemed to have been earned in a fiscal year in a province or territory of Canada outside Ontario is the aggregate of,

(a) that portion of its allocable income for the fiscal year that the port-call-tonnage in that province or territory of Canada is of the port-call-tonnage in Canada; and

(b) if its taxable income for the fiscal year exceeds its allocable income for the fiscal year, that portion of the excess that the aggregate of the salaries and wages paid in the fiscal year by the corporation to employees of any permanent establishment, other than a ship, in that province or territory of Canada, is of the aggregate of salaries and wages paid in the fiscal year by the corporation to employees of permanent establishments, other than ships, in Canada.

(26a) For the purpose of subsection 26,

(28b) Where a corporation, the chief place of business of which is in a jurisdiction outside Canada with which Canada has no convention or treaty for the avoidance of double taxation, has a permanent establishment in Ontario, this section applies as though the portion of the taxable income of the corporation which is subjected to taxation under section 31 of the *Income Tax Act* (Canada) were the total taxable income of such corporation.

(i) where standing timber is cut in a province by the corporation or logs cut from standing timber in a province have been acquired by the corporation, if the logs thus obtained are sold by the corporation in that province prior to or on delivery to a saw-mill, pulp or paper plant or other place for processing logs, the net profit for that fiscal year derived by the corporation from the acquisition and sale, or acquisition, transportation and sale, of the logs;

(ii) where standing timber in a province, or the right to cut standing timber in a province, is sold by the corporation on a stumpage or royalty basis or otherwise, the net profit for the fiscal year from the acquisition of the standing timber or the right to cut standing timber, and the sale of the timber;

(iii) where standing timber is cut in a province by the corporation or logs cut from standing timber in the province have been acquired by the corporation, if the logs thus obtained are exported from Canada prior to sale or delivery to a saw-mill, pulp or paper plant or other place for processing logs, or if the logs are exported from that province and sold prior to or on delivery to a saw-mill, pulp or paper plant or other place for processing logs, the net profit for that year derived by the corporation from the acquisition or the acquisition and transportation of the logs, computed from the value of the logs exported during the fiscal year, as determined by that province, minus the aggregate of the cost of acquiring, cutting, transporting and selling the logs;

(iv) except as provided in subclause v, where standing timber is cut in a province by the corporation or logs cut from standing timber in a province have been acquired by the corporation, if the corporation operates a saw-mill, pulp or paper plant or other place for processing logs in Canada wherein the logs are processed, the net profit for the fiscal year from all sources, minus the aggregate of

(A) the returns received by the corporation by way of dividends, interest or other like payments from stocks, shares, bonds, debentures, loans or other like investments,

(B) the net profit if any derived by the corporation from and attributable in accordance with sound accounting principles to the carrying on of any business, or derived from and so attributable to any source, other than logging operations and the transportation, processing and sale, or the transportation, processing or sale, of logs and standing timber, and other than as a return on investments mentioned in paragraph (A),

(C) the net profit if any derived by the corporation under subclauses i, ii, and iii, and

(D) an amount, by way of return on capital employed by the corporation in processing logs, equal to 8 per cent of the original cost to the corporation of the depreciable assets including machinery, equipment, plant, buildings, works and improvements, used by the corporation in the processing of logs, but not in excess of 65 per cent, nor less than 35 per cent or such greater percentage, not in excess of 65, as the province may determine, of that portion of the total net income from all sources remaining after deducting therefrom the amounts specified in paragraphs (A), (B), and (C); and

(v) where the corporation cuts standing timber or acquires logs cut from standing timber, in more than one province, the income derived from logging operations for the fiscal year shall be allocated between such provinces in the same ratio that the quantity of logs cut or acquired originating in a province in the fiscal year bears to the total quantity of logs cut or acquired by the corporation in that year;

(b) "income derived from mining operations" means the net profit derived or deemed to have been derived from mining operations by a corporation engaged therein with or without an allowance in respect of depletion and if such corporation receives net profit from sources other than mining operations either by reason of the carrying on by the corporation of the processing of mineral ore extracted by him or otherwise, the net profit to be deemed to have been derived by the corporation from mining operations shall not exceed that portion of the total net profit received by the corporation from all sources, determined by deducting from the said total the aggregate of

(i) the returns received by the corporation by way of dividends, interest or other like payments from stocks, shares, bonds, debentures, loans or other like investments;

(ii) the net profit if any derived by the corporation from and attributable in accordance with sound accounting principles to the carrying on of any business, or derived from and so attributable to any source, other than mining operations and the processing and sale of mineral ore or products produced therefrom, and other than as a return on investments mentioned in subclause i; and
